STATEMENT IN RELATION TO THE PROPOSED RENEWAL OF SHARE BUY-BACK AUTHORITY (“SHARE BUY-BACK STATEMENT”)

1. INTRODUCTION

At the 25th AGM of the Company held on 4 October 2023, your Board had obtained your approval to undertake the purchase by Analabs of its own shares of up to ten percent (10%) of the total number of issued shares of the Company (“Proposed Share Buy-Back”). The approval for the Proposed Share Buy-Back shall lapse at the conclusion of the forthcoming 26th AGM of Analabs which will be held on 10 October 2024.

On 27 June 2024, the Company announced that it proposes to seek from the shareholders the approval for the renewal of the Proposed Share Buy-Back. The renewal will be effective immediately upon the passing of the ordinary resolution at the 26th AGM and will expire at the conclusion of the next Annual General Meeting of the Company unless by ordinary resolution passed at that meeting, the authority is renewed, either unconditionally or subject to conditions or the expiration of the period within which the next Annual General Meeting is required by law to be held or the authority is revoked or varied by an ordinary resolution of the shareholders of the Company at a general meeting, whichever is the earlier.

2. SOURCE OF FUNDS

The Main Market Listing Requirements of Bursa Securities and the Companies Act, 2016 (“the Act”) stipulates that the proposed purchase by a listed company of its own shares must be made wholly out of retained profits of the listed company.

Analabs therefore proposes to allocate an amount not exceeding the retained profits of the Company at the time of purchase(s). The retained profits of the Company based on the latest audited financial statements for the year ended 30 April 2024 was RM 80.1million.

The funding for the Proposed Share Buy-Back will be sourced from internally generated funds and/or external borrowings, the proportion of which will depend on the quantum of the purchase consideration as well as the availability of internally generated funds and borrowings and repayment capabilities of the Company at the time of purchase(s). In the event the Proposed Share Buy-Back is to be partly financed by external borrowings, the Company expects that it will be capable of repaying such borrowings and that such funding is not expected to have any material effect on the cash flow of Analabs Group.

3. RATIONALE, POTENTIAL ADVANTAGES AND DISADVANTAGES OF THE PROPOSED SHARE BUY-BACK

Pursuant to the provisions of Section 127(7) of the Act, the Directors may deal with the shares in the following manner:-

- (i) cancel the shares so purchased; and/or
- (ii) retain the shares so purchased in treasury, which may be distributed as share dividends to the shareholders and/or resold on Bursa Securities in accordance with the relevant rules of Bursa Securities and/or transferred for the purposes of or under an employees' share scheme and/or transferred as purchase consideration and/or cancelled subsequently and/or sold, transferred or otherwise be used for such purposes as the Minister may by order prescribe; and/or
- (iii) retain part of the shares so purchased as treasury shares and cancel the remainder; and/or
- (iv) such other manner as may be permitted by the Act.

The Proposed Share Buy-Back, if exercised, is expected to potentially benefit the Company and its shareholders as follows:-

- (a) The Company may be able to stabilise the supply and demand of the ordinary shares of Analabs ("Analabs Shares") in the open market of Bursa Securities thereby supporting its fundamental value.
- (b) The earnings per share of the Group will be strengthened if the shares purchased are cancelled which in turn will have a positive impact on the Company's share price.
- (c) If the Analabs Shares so purchased by the Company are held as treasury shares, the Company may have the opportunity to distribute those shares as share dividends, thus benefiting the shareholders. The treasury shares may also be re-sold in the open market of Bursa Securities at a price higher than the purchase price, thereby realising a potential gain for Analabs without affecting the Company's issued share capital.
- (d) Analabs may be able to use its financial resources where there is no immediate use for them.

However, the Proposed Share Buy-Back, if implemented, would reduce the financial resources of the Group. This may result in the Group having to forego better investment opportunities in the future or, at the least, deprive the Company and the Group of any income that may be derived from the deposit of such funds in interest bearing instruments. The Proposed Share Buy-Back may also result in a reduction of financial resources available for distribution in the form of cash dividends to the shareholders of Analabs.

The actual treatment of the shares purchased pursuant to the Proposed Share Buy-Back would depend on, inter-alia, the prevailing equity market conditions and the financial position of Analabs.

Your Board will be mindful of the interest of Analabs and its shareholders in implementing the Proposed Share Buy-Back and its subsequent resale.

4. EFFECTS OF THE PROPOSED SHARE BUY-BACK

The effects of the Proposed Share Buy-Back on the share capital, net assets, earnings, dividend and shareholdings of Directors and substantial shareholders of the Company are set out below:-

4.1 Share Capital

In the event that the maximum number of Shares authorised under the Proposed Share Buy-Back are purchased and subsequently cancelled, the effects of the Proposed Share Buy-Back on our issued share capital will be as follows:-

	No. of Shares
Issued share capital (inclusive of the 11,114,100 treasury shares) held as at 7 August 2024	120,048,000
Less: Maximum number of Shares that may be purchased pursuant to the Proposed Share Buy-Back	12,004,800
Total number of issued shares after cancellation of the Shares purchased under the Proposed Share Buy-Back	108,043,200

However, if all the Purchased Shares are retained as treasury shares, the Proposed Share Buy-Back would not have any effect on our issued share capital. The rights attached to the treasury shares as to voting, dividend and participation other distribution are suspended and the treasury shares shall not be taken into account in calculating the number of percentage of shares or of a class of shares in the Company for any purpose including without limiting the generality of the provision of any law or requirements of the Constitution or the Listing Requirements on substantial shareholding, takeover, notices, requisitions of meetings, quorum for meetings and the result of votes on resolutions at a meeting of shareholders.

4.2 Net Assets and Working Capital

The effects of the Proposed Share Buy-Back is likely to reduce or increase the Net Assets per share of the Analabs Group and will reduce the working capital of the Analabs Group, the quantum of which depends on the number of Analabs Shares purchased, the purchase price and the effective funding costs of the Analabs Group. The Proposed Share Buy-Back will reduce the Net Assets per share of the Analabs Group if the purchase price exceeds the Net Assets per share of the Group at the time of the purchase. Conversely, the Net Assets per share of Analabs Group will increase if the purchase price is less than the Net Assets per share of the Analabs Group at the time of the purchase.

Should the Company choose to resell the treasury shares on Bursa Securities, depending on the price at which the said shares are re-sold, the Proposed Share Buy-Back may have a positive effect on the Net Assets of the Group if a gain on disposal is achieved.

If the treasury shares are distributed as share dividends, the Net Assets per share of Analabs Group would decrease by the cost of the treasury shares.

The audited Net Assets per share of the Analabs Group as at 30 April 2024 is RM4.08.

4.3 Earnings

The effects of the Proposed Share Buy-Back on the earnings of the Group are dependent on the purchase price of Analabs Shares and the effective funding cost or loss in interest income to the Group.

Assuming that the Analabs Shares so purchased are retained as treasury shares and subsequently resold, the effects on the earnings of the Group are dependent on the actual selling price, the number of treasury shares resold, the effective gain or interest savings arising from the exercise, and the manner in which the proceeds arising therefrom are utilised.

If the Analabs Shares so purchased are cancelled, the Proposed Share Buy-Back will increase the earning of the Group provided the income foregone and if any, interest expense incurred on the shares purchased are less than the consolidated earnings before the Proposed Share Buy-Back.

4.4 Dividends

The Proposed Share Buy-Back is not expected to have any impact on the policy of the Board in recommending dividends, if any, to the shareholders. However, the Board may distribute future dividends in the form of the treasury shares purchased pursuant to the Proposed Share Buy-Back.

4.5 Directors' And Substantial Shareholders' Shareholdings

Assuming that the Proposed Share Buy-Back is implemented in full and that the Analabs Shares are purchased from shareholders other than the Directors and existing substantial shareholders of the Company, the effects of the Proposed Share Buy-Back on the shareholdings of the Directors and Substantial Shareholders and Persons Connected to the Directors and Substantial Shareholders of Analabs as at 7 August 2024, being the most practicable date prior to the printing of this Statement, are set out as follows:-
